ROBOT COT

How much longer?!

Hold still you little squirt.

Y'know...

As much as you love playin' in the mud...

This is the third time I've had to clean your circuits today...

No more mud pies from now on, k?

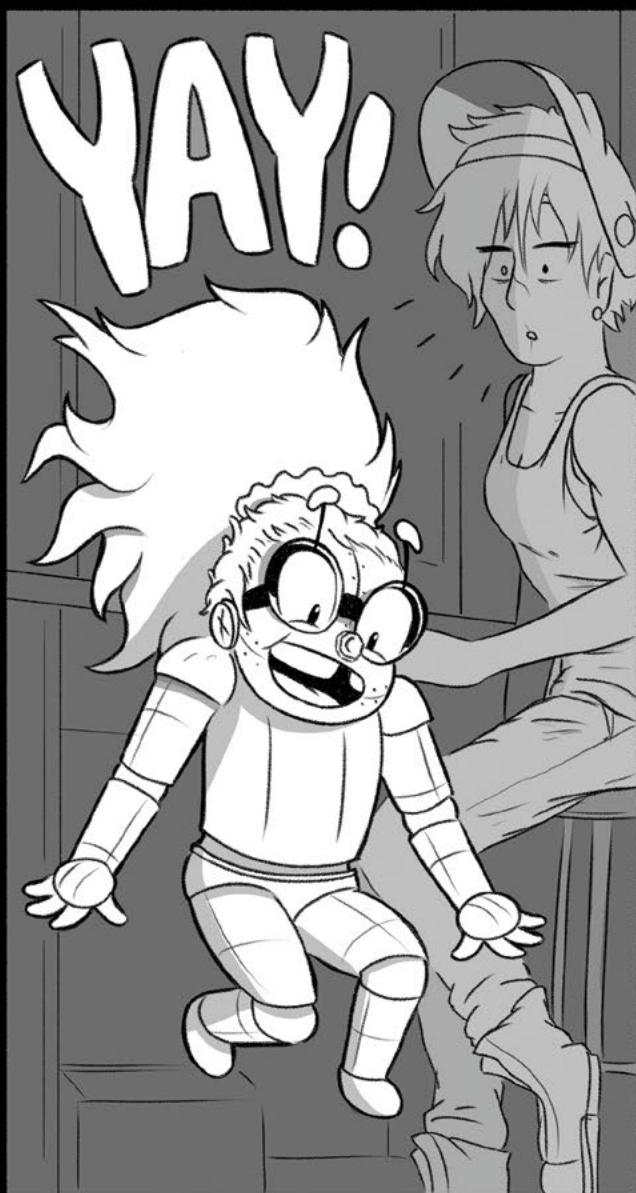

Aww
www
www!

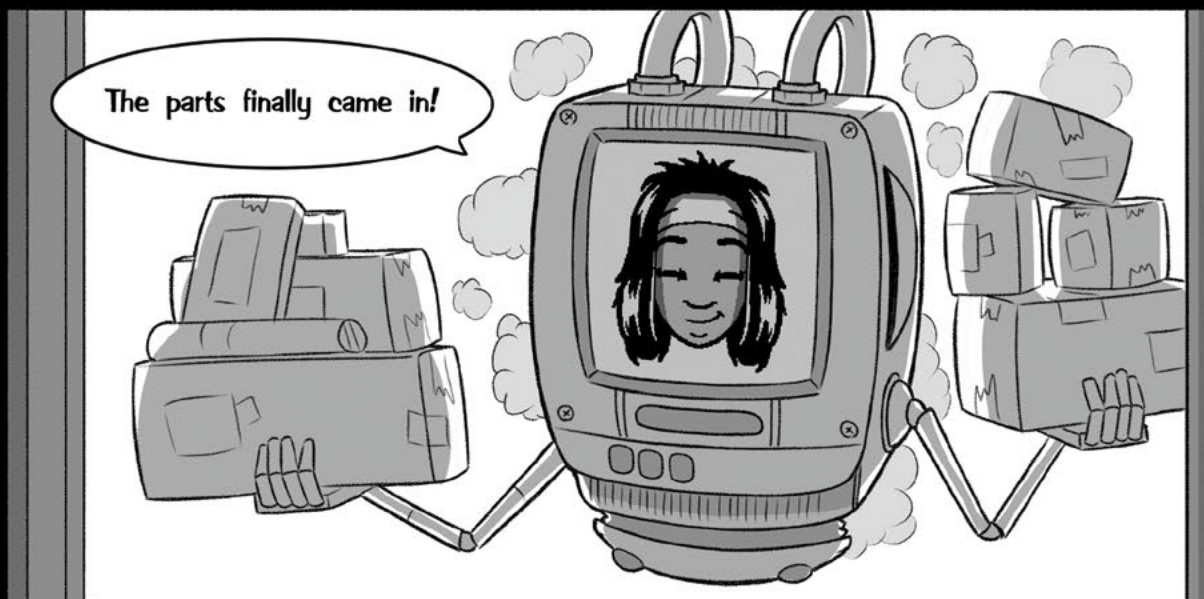

But-

Yup, at least until I can figure out how to make you mud proof.

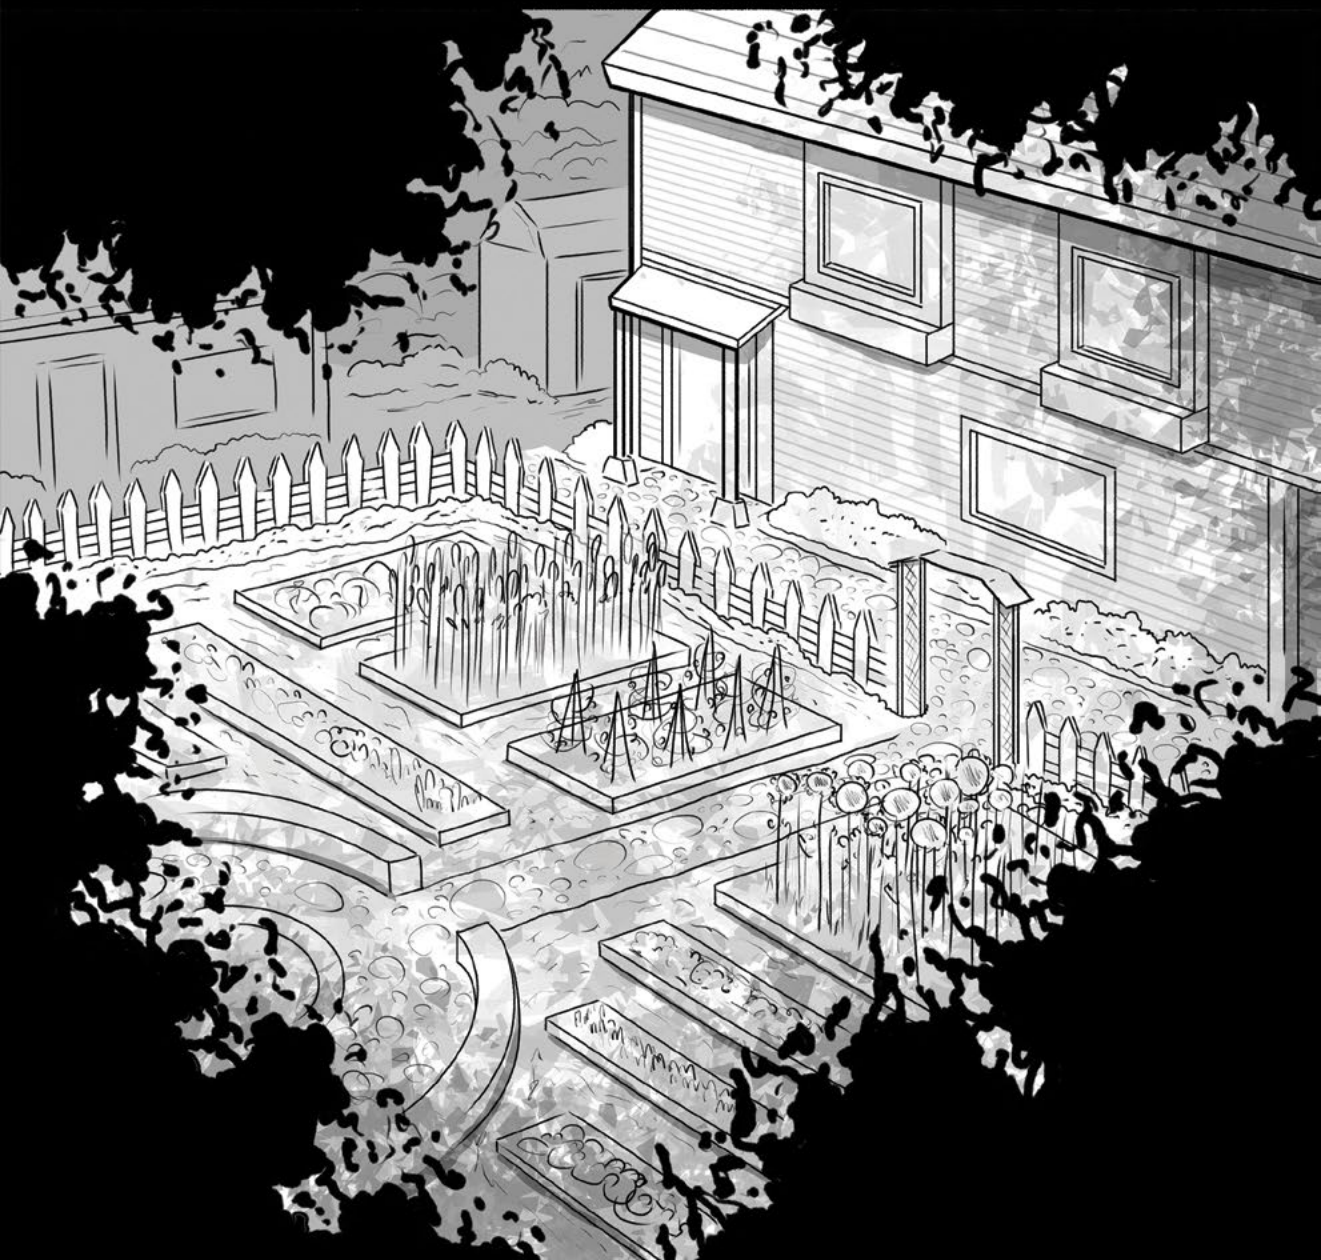

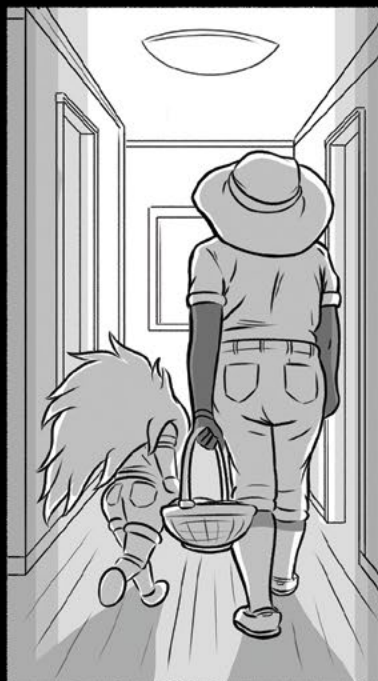

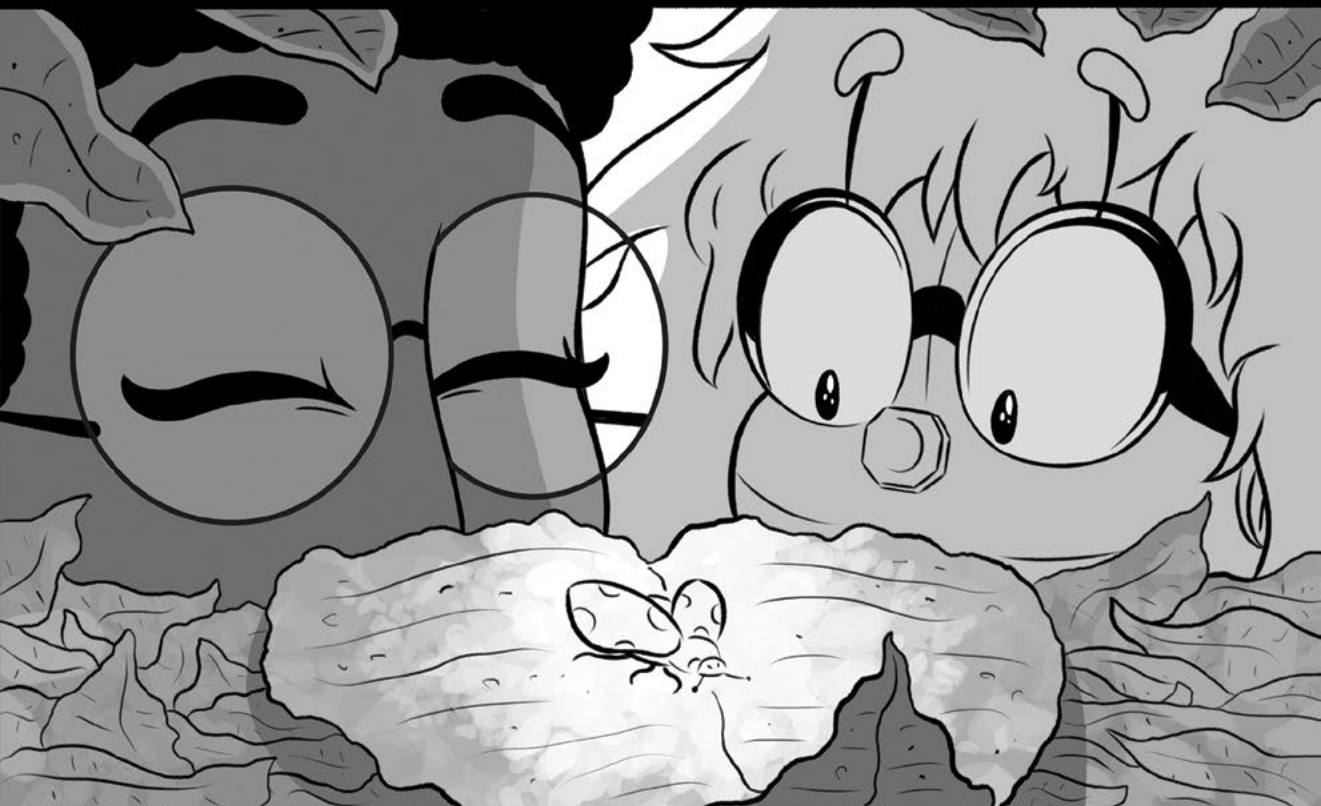

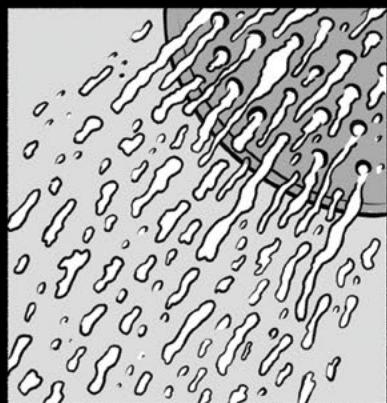

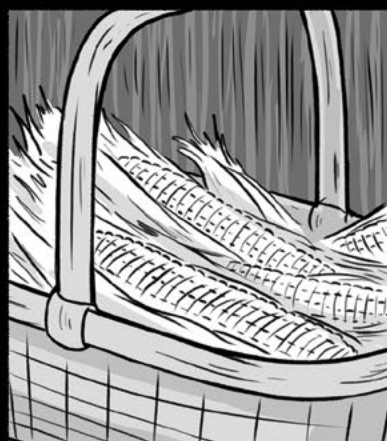

Momma! Momma!

The veggies are all ready!

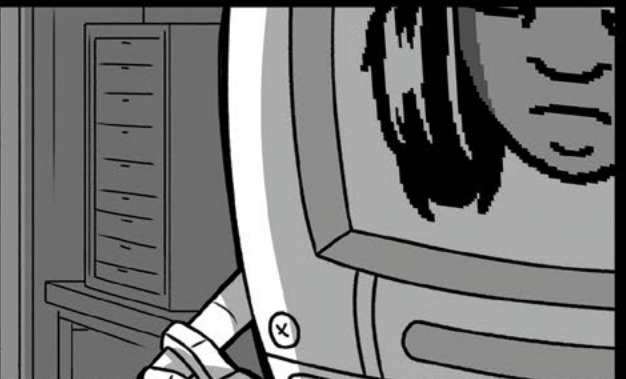

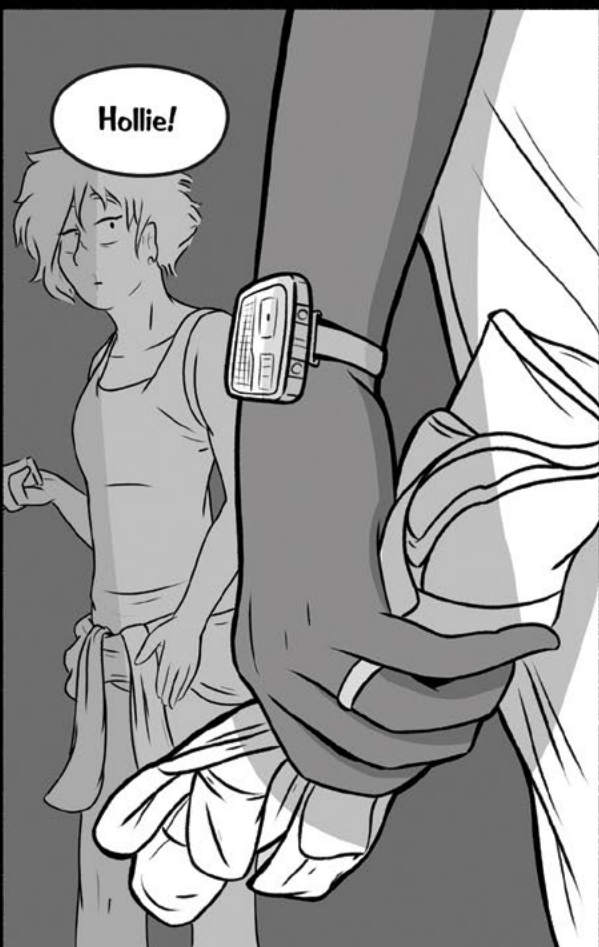

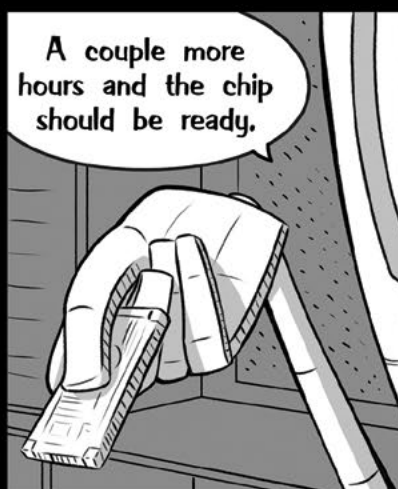

Right on sport!
Were you a
good helper?

Yup! I
even saw a
ladybug!

Nice! Go ahead
and watch some
cartoons for me,
I'll be in there
soon.

And with our
squirt around, she
might figure out
how to navigate
them better than
we do.

I wouldn't be
surprised, the
way she's been
soaking up
information.

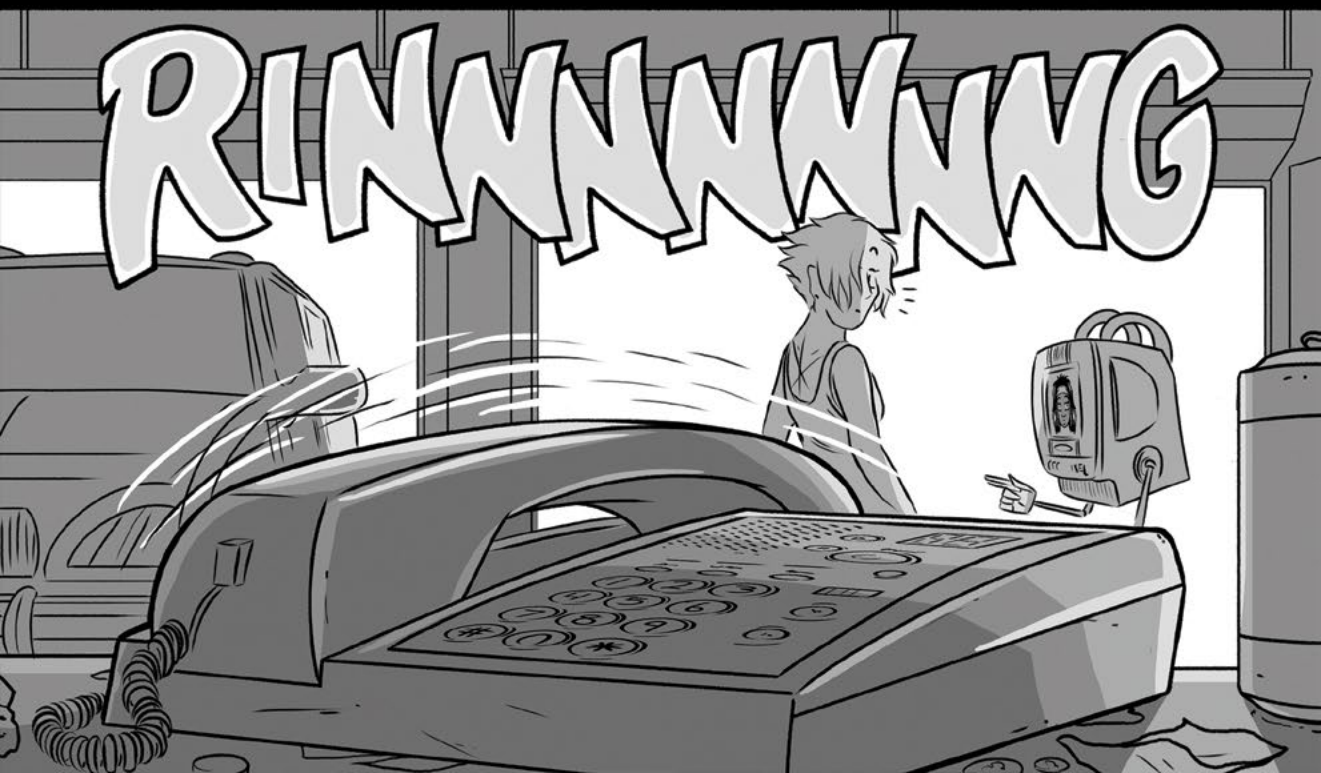

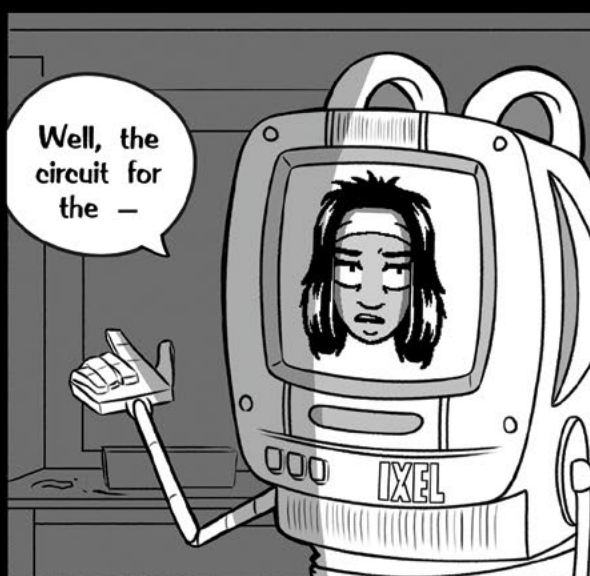

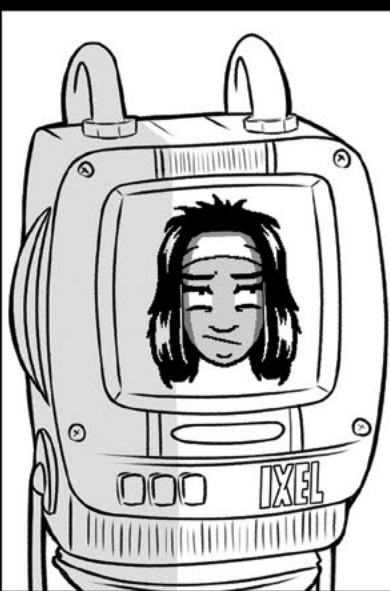

Come inside
darling, I'll
help with
dinner.

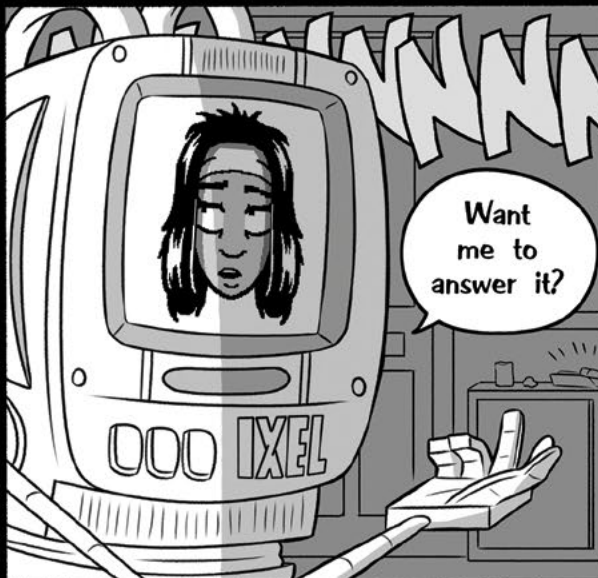

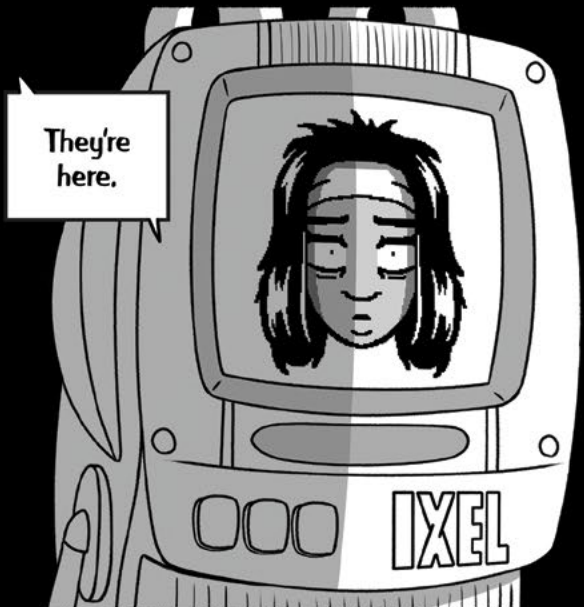

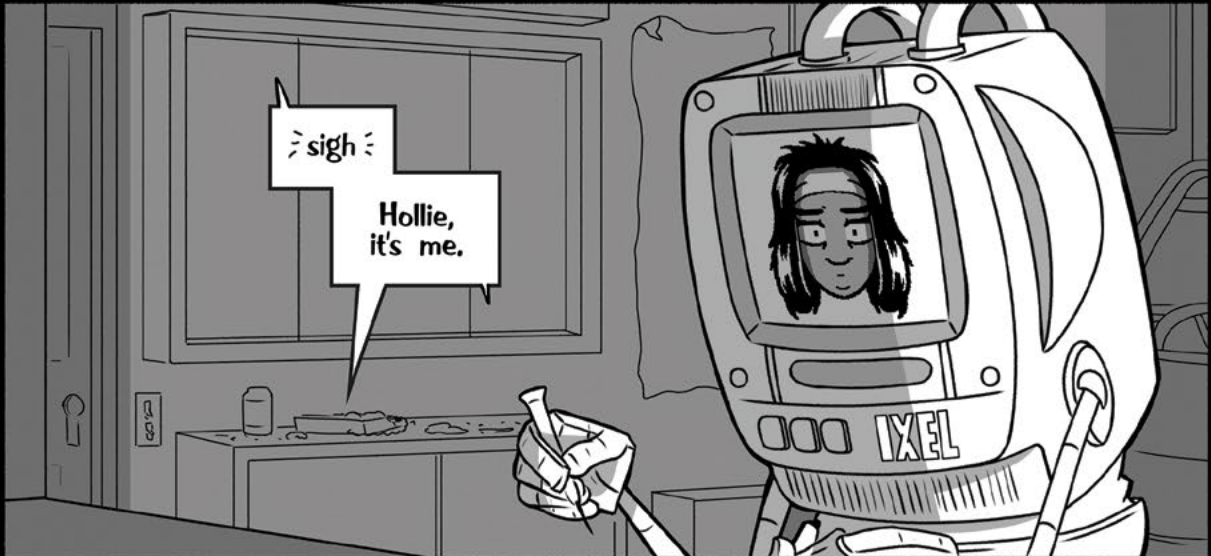

Alright, just
let me get
cleaned up
in here.

I'll be waiting.

I didn't ever think they'd ever break Lizz's formulas.

It all happened so fast.

I've been able to scout this dimension for awhile now.

I had to know if all of you were still alive.

Because if I
found you-

Most thought you were both
dead after what happened-

they will.

but she knew
better.

She wants her, Hollie.

I'll call you again tomorrow if I can,

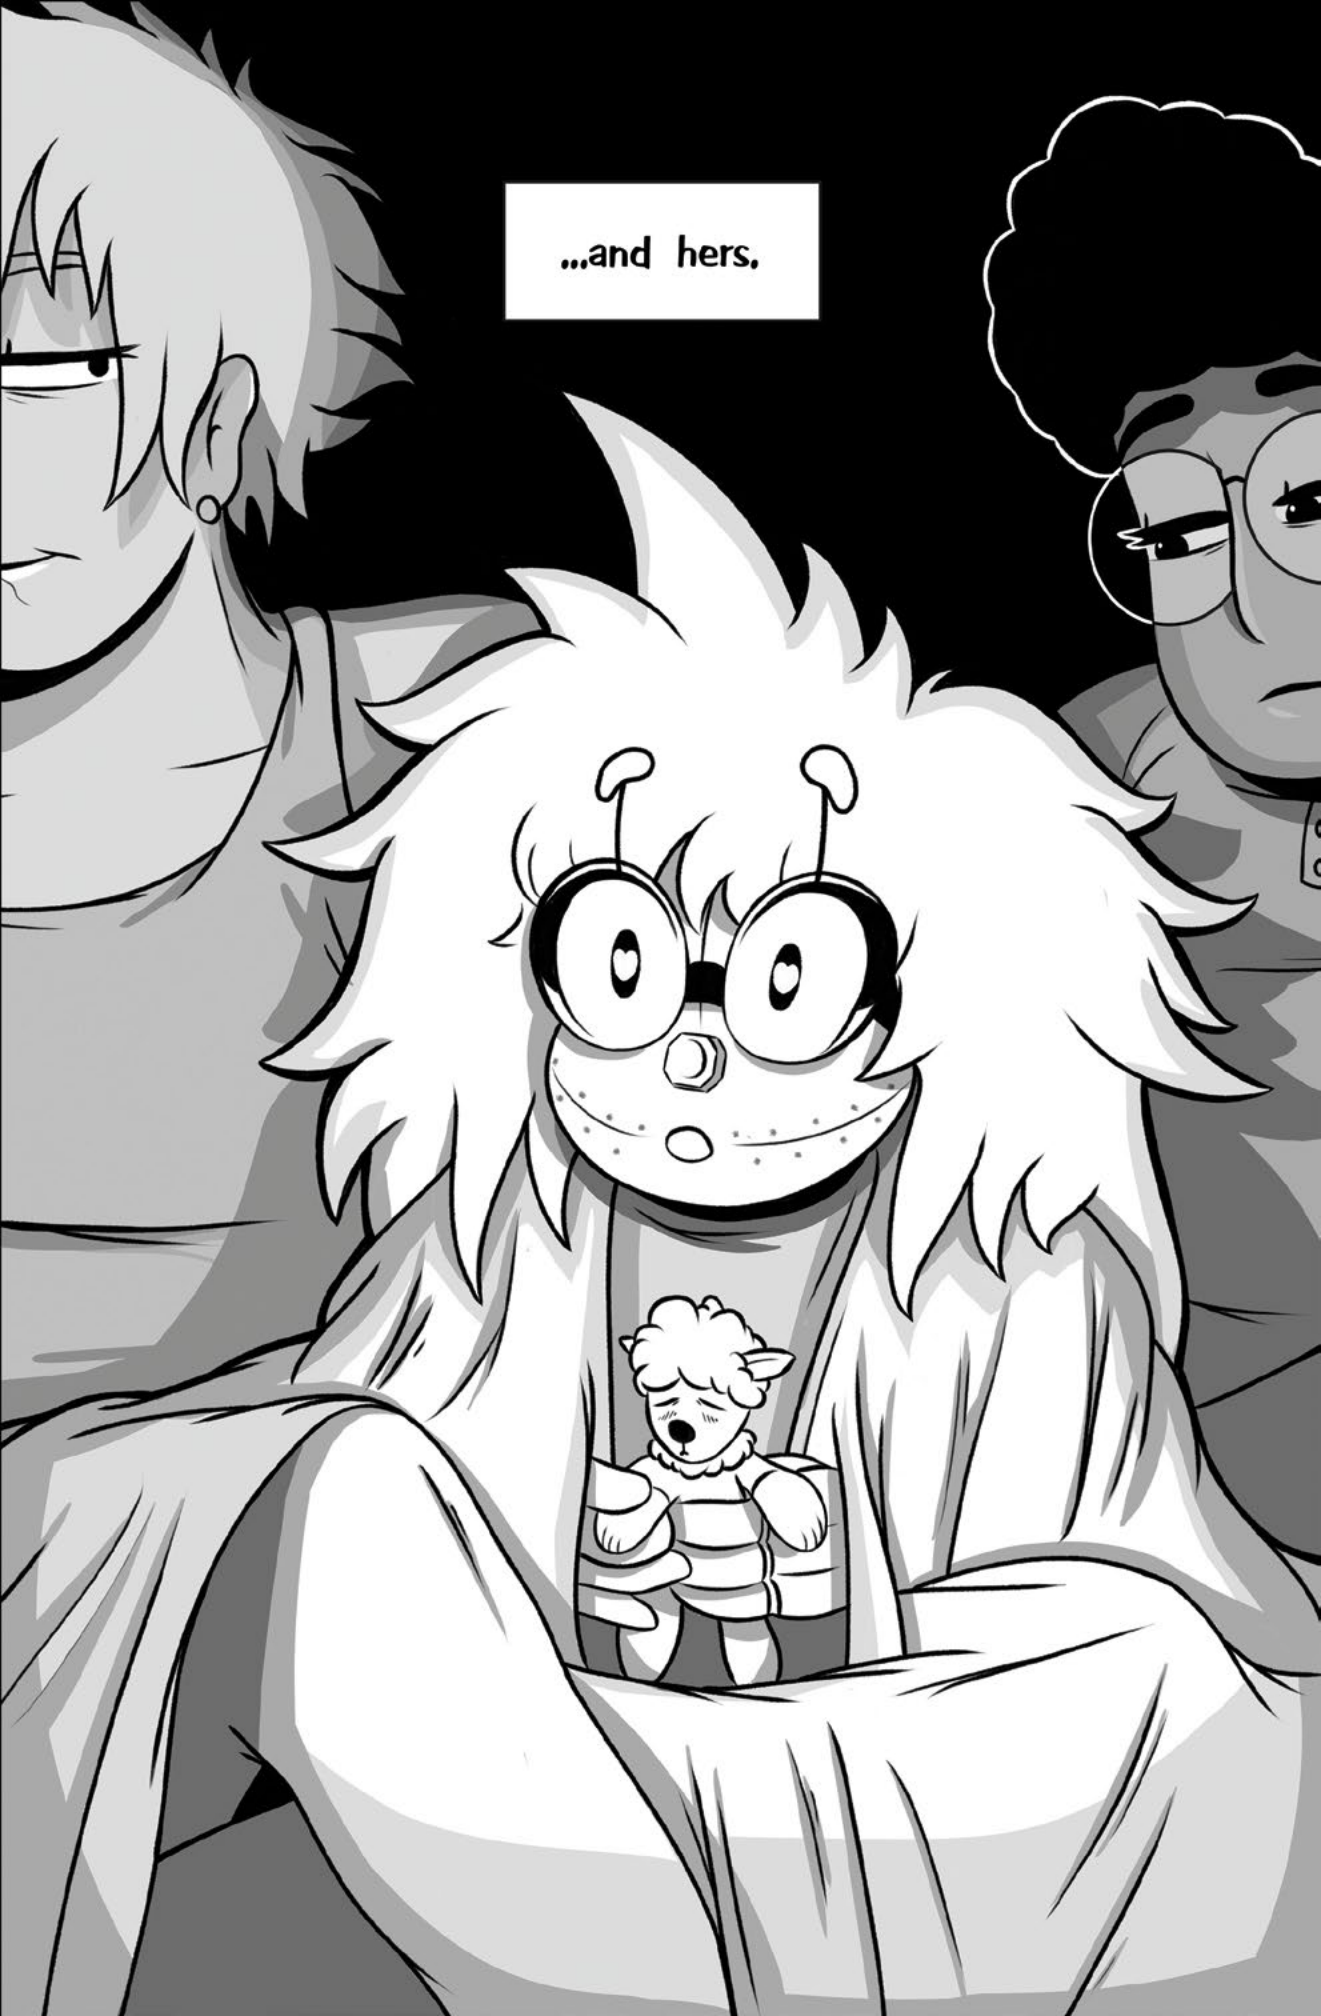

Just trust me, please-

for Lizz's sake,

...and hers.
